NextKeeper

THE CONNECTED CABINET THAT REINVENTS YOUR BILLIARD GAMES

Automate the management of your tables,
secure your equipment and bill by actual play time.

SECURED EQUIPMENT

INTEGRATED PAYMENT

REAL-TIME BILLING

CONNECTED & AUTONOMOUS

More control. • More transparency. • More profitability.

The operators' dilemma

PER-GAME MANAGEMENT

- ✓ Easy to start
- ✓ Autonomous
- ✓ But less profitable if the customer keeps playing longer

VS

HOURLY MANAGEMENT

- ✓ More profitable
- ✓ Billing based on actual play time
- ✓ But more restrictive for the front desk
- ✓ Deposit / manual handling

NextKeeper combines the best of both models.

Your connected cabinet

An autonomous solution that secures equipment, streamlines the customer experience and optimizes the profitability of your billiard tables.

- **Connected lockers**
- **Smart payment terminal**
- **RFID reader**
- **Connected scales**
- **Cloud management**
- **Status LEDs**

More control. • More transparency. • More profitability.

Customer journeys

BANK CARD JOURNEY

1. Choose your table
2. Pre-authorize your bank card
3. Collect the balls
4. Play freely
5. Return the balls
6. Pay based on actual time

RFID JOURNEY

1. Identify yourself with your NextKeeper Pass card
2. Collect the balls
3. Play freely
4. Return the balls
5. Pay at the counter at the end of the game

MORE PROFITABILITY
Real-time billing and better monetization of tables

LESS WAITING
Reduced front-desk workload

MORE SECURITY
Equipment protected, tracked and returned

MORE SATISFACTION
A smooth, modern and autonomous experience

More control. • More transparency. • More profitability.
